Empowering Caregivers

Your loved one has been diagnosed with a chronic condition, such as Alzheimer's or another disease... Now what?

June 25, 2025 | 10 - 11 a.m. MST/Arizona

Join Elaine Scholly—author, speaker, and caregiving advocate—for a powerful and practical presentation that will guide you through the odyssey ahead. She'll introduce the Scholly stages, a new approach that offers a clear and compassionate roadmap.

Scholly Stages will help you:

- Identify the challenges ahead
- Prioritize what matters most
- Address needs with confidence and clarity

While chronic conditions may not be curable, informed decisions and emotional preparation can make a profound difference. This framework equips caregivers to act with confidence.

Elaine Scholly

Elaine Scholly's mother and grandmother had Alzheimer's. She shares her personal journey in her book, *Alzheimer's: Be Aware and Prepared, Caregiving at Any Age*.

A longtime volunteer with the Alzheimer's Association, Elaine is dedicated to supporting dementia family caregivers with education, encouragement, and practical advice.

Her new video series, *Let's Talk Alzheimer's*, offers helpful guidance for those navigating caregiving at any age.
